PROFESSIONAL SUMMARY

Software Engineer with **7+ years** of experience designing and delivering enterprise web applications in **C#, ASP.NET and SQL Server**. Built core payroll and time-and-attendance functionality for a multilingual platform used by employees in **seven countries**, and delivered school and business management systems for UAE clients in education and construction. Strongest in the data layer: database design, complex stored procedures, query optimization and reporting with SSRS and Crystal Reports. Designed gross pay logic and payroll data transfers for a platform where every pay cycle depends on correct figures.

CORE COMPETENCIES

- Enterprise web applications
- Payroll and time and attendance
- Database design and T-SQL
- Stored procedures and query tuning
- SSRS and Crystal Reports
- Multilingual (i18n) applications
- Requirements analysis with clients
- Data accuracy and integrity
- Activity-based costing (ABC)

TECHNICAL SKILLS

Languages	C#, ASP.NET Web Forms, .NET Framework 4.8, ADO.NET, LINQ, JavaScript, HTML, CSS
Databases	Microsoft SQL Server, T-SQL, stored procedures, query optimization, SSIS
Reporting and UI	SSRS, Crystal Reports, DevExpress, Telerik

PROFESSIONAL EXPERIENCE

Software Engineer | Conduent — Sep 2022 – Present

FEPS: enterprise time, attendance and payroll platform used by employees across seven countries · C#, ASP.NET Web Forms, .NET Framework 4.8, SQL Server

- Engineered core modules for work-time capture, leave management and activity-based costing (ABC) data that feed every pay cycle.
- Designed and implemented the gross pay calculation logic and the data transfer to downstream payroll systems, ensuring accuracy in every pay period.
- Delivered multilingual support, enabling a single application to serve users across all regions.
- Improved system efficiency and data accuracy for international payroll processing, supporting country-specific requirements.

Software Engineer | UST — May 2022 – Sep 2022

- Contributed to internal .NET development initiatives ahead of client project assignment.

Software Engineer | Orison Software Specialists — Jun 2019 – May 2022

School and business management systems for education and construction clients in the UAE · ASP.NET Web Forms, C#, SQL Server, Crystal Reports

- Delivered web modules and reports for school management and business management systems used by UAE clients.
- Authored complex stored procedures and SQL queries for large-scale data processing and reporting.
- Designed client-specific Crystal Reports for operational and management decision-making.
- Partnered directly with UAE clients to translate business requirements into working software.

.NET Intern | Spectrum Softtech Solutions — Jan 2019 – Jun 2019

- Developed .NET web applications as part of a software development and IT-enabled services team.

EDUCATION

Bachelor of Computer Applications (BCA) | St. Mary's College, Sulthan Bathery — 2015 – 2018
